

**THE ISRAELI
TOUR**

WE invite you to take part in a heterogenic international group, in a learning expedition to the fascinating world of Israeli innovation:

START-UPS - SHARED WORKING ZONES - GROUNDBREAKING SCHOOLS - MEETING ISRAELI INNOVATORS...

All these alongside a group working - weaving a network of colleagues, of friends.

Networking is our business – Education Cities promotes the art of collaborations, which is the heart of innovation today, in the classroom, in the school, in the city, in the state and worldwide.

We wish to share and tell about our roots, our inspiration, about the fertile ground on which we and many other innovative entrepreneurs, can grow and flourish – we wish to tell about Israel!

Israel is known as the “startup nation”. We believe it is the rare combination between new – open mind to innovation and experiment, and old – the “Hevrutha”, mutual responsibility, mutual aid, and collaborations, which turns Israel into a central player on the field of global innovation.

JOIN US IN A TRULY UNIQUE EXPERIENCE A LEARNING TOUR 2.0!
